

What is the name of bond in poly and disaccharides?

11

Hydrophobic bond

Electrostatic bond

Glycoside bond

No bond

What is difference between Amyloso and amylopectin?

1

The same

Amyloso has 1-4 and 1-6 glycoside bonds

Amylopectin has 1-4 glycoside bonds

Amylopectin has 1-4 and -1-6 glycoside bonds

What is name of 18-carbon, monounsaturated fatty acid?	18
Oleic acid	الف
Linoleic acid	ب
Palmitic acid	ج
Linolenic acid	د
متنوع:	

What is Saponification?	19
Hydrolysis of TAG in the presence of a weak acid	الف
Hydrolysis of TAG in the presence of a strong acid	ب
Hydrolysis of TAG in the presence of a strong base	ج
Hydrolysis of TAG in the presence of a weak base	د
متنوع:	

How do lipids form in water?	20
Micelle form	الف
Ester form	ب
Salt form	ج
None	د
متنوع:	

What is another name of cephaline?	21
phosphatidylserine	الف
phosphatidylcholine	ب
phosphatidylethanolamine	ج
None	د
متنوع:	

What is racemic solution ?

- An equal mixture of right-handed and left-handed lactic acid
- An equal mixture of right-handed and left-handed pyrovic acid
- An equal mixture of right-handed and left-handed carbonic acid
- An equal mixture of right-handed and left-handed phosphoric acid

What are the components of hyaluronic acid?

- D-glucuronic acid and *N*-acetyl-D-glucosamine
- D-glucuronic acid and *N*-acetyl-D-galactosamine
- D-urocuronic acid and *N*-acetyl-D-galactosamine
- D-glucuronic acid and *N*-acetyl-D-mannosamine

What is not correct for lipids?

- It is a hydrophobic molecule
- It is a nonpolar molecule
- It is a polar molecule
- It is a water insoluble molecule

What is the name of bond in poly and disaccharides?	11
Hydrophobic bond	
Electrostatic bond	الف
Glycoside bond	ب
No bond	ج
	د
منبع:	

Which one is nonreducing disaccharid?	12
Sucrose	الف
Maltose	ب
lactoseL	ج
lactose-Maltose	د
منبع:	

Which one is heteropolysaccharid?	13
Cellulose	الف
Glycogen	ب
Amylose	ج
glycoproteins	د
منبع:	

What is difference between Amyloso and amylopectin?	14
The same	الف
Amyloso has 1-4 and 1-6 glycoside bonds	ب
Amylopectin has 1-4 glycoside bonds	ج
Amylopectin has 1-4 and -1-6 glycoside bons	د
منبع:	

How many amino acids are in each α helix turn ?

26

3.4	الف	
3.6	ب	۱
2.8	ج	
4.7	د	
	منابع	

What is salting in ?

27

Precipitate proteins by salt	الف	۱
Dissolve proteins by low concentration of salt	ب	
Dissolve proteins by high concentration of salt	ج	
Dissolve protein by acid	د	
	منابع	

Which option is correct for Ala- Iue- Tyr- Met phrase from left to right?

28

Non polar -Non polar - Polar uncharged - non polar		۱
Non polar -Non polar - Polar uncharged -polar	ب	
Non polar - polar - Polar uncharged - non polar	ج	
Polar -Non polar - Polar uncharged - non polar	د	
	منابع	

Which option from left to right is correct for Phe- Asp - Gln-Trp?

29

keto genic- Glucogenic- Glucogenic- Gluco and ketogenic	الف	
Gluco and keto genic- Glucogenic- Glucogenic- ketogenic	ب	
Gluco and keto genic- ketogenic- Glucogenic- Gluco and ketogenic	ج	
Gluco anf keto genic- Glucogenic- Glucogenic- Gluco and ketogenic	د	
	منابع	

What is Sphingosine?	22
It is a fatty acid	الف
It is glycolipid	ب
It is a glycerol derivatives	ج
It is unsaturated aminoalcohol	د
Which option is not correct for protein?	منابع

It is a macromolecule	23
It is a micromolecule	الف
It is a enzyme	ب
It is a pathogen	ج
	د
	منابع

What bond have more part in tertiary structure of protein formation ?	24
Hydrophobic bond	الف
Hydrogen bond	ب
Disulfid bond	ج
Electrostatic bond	د
	منابع

What is a motif ?	25
Super secondary structure of proteins	الف
Primary structure of protein	ب
Tertiary structure of proteins	ج
Randomcoil structure?	د
	منابع

8

What is the name of term α helix-B sheet -heix in a polypeptide?

- Loop
- Turn
- Motif
- Domain

الف
ب
ج
د

منبع:

9

What type of sugar is ribose?

- Pentose
- Hexose
- Pentose
- Heptose
