

Lesson1

1-What are the foundations of divine morality?

Divine morality is based on the religious faith, divine satisfaction, the divine revelation, the spiritual identity of man, belief in the resurrection, attention to human body and soul and divine supervision

2-What was the purpose of the prophets, especially the Prophet of Islam, peace be upon him?

The aim of the prophets, especially the Prophet of Islam, may God bless him and his Household, was to educate and train human beings to attain the higher goals and to purge their thoughts of pollution and impurities.

3-What effect has the divine morality of Islam had on man and the realities of human life?

The unprecedented impact it had on the human psyche and the reality of life was to elevate a degenerate ethnic group from the depths of humiliation to the height of human dignity.

4-What does Professor Eric Lincoln think about the influence of Islamic ethics on black Americans in the United States?

The impact of Islam on black Americans has been tremendous. Before converting to Islam, non-Muslim blacks lived in the worst conditions, while now they have a much higher standard of social and economic life. Among black families, there is no deviance or addiction among young people that plunges American society into a state of panic. Even non-Muslim drug addicts who convert to Islam receive training that allows them to avoid addiction and become very active members of society. Black American Muslims do not bother others at all. Only when they are intimidated and attacked do they defend themselves with all their might.

5- In divine ethics, how can man get divine satisfaction?

Therefore, the divine man pays special attention to his Creator and the universe. In this view, man is created by God and is God's successor and trustee. He wants to please God, so he accepts God's invitation to reach real life:

6-Why do we use revelation instead of empirical, intellectual or intuitive sources in divine ethics? And what is the weakness of secular beliefs?

fact, the followers of the heavenly religions consider revelation to be the most important source of knowledge. Because it is a source that comes from infinite divine knowledge

Secular beliefs describe human identity only in social and biological dimensions, but divine morality pays special attention to human spiritual identity.

7-What effect does belief in resurrection have on human morality?

believes in the Hereafter, should adopt a behavior that will not only be punished on the Day of Judgment but also receive a divine reward there. Hence, the preparation for death plays an important role in correcting human behavior. Because God has a day of judgment. On Judgment Day, everyone is responsible for their own actions. And there is no escape from divine punishment.

In other words, belief in the resurrection is the source of divine piety and self-control. Because, with this view, man realizes that there is a place to calculate and reward all his actions.

8-How is the divine education system different from today's societies?

In today's societies we find no balance in their systems of thought, and they all tend to one extreme or the other. They either tend to be completely rational and material, or they tend to be intellectual and spiritual. Their focus is on the world or human beings. But the divine education system turns its attention to the eternal nature of man, as it really is, and, more than any other school of moral or educational thought, informs him of his duties.

9-What effect does belief in divine supervision have on the morals of a believer?

Accepting divine supervision over man leads to man's accuracy in this life and prevents the occurrence of divine punishment in the hereafter. And increases its tolerance for incompatibility.

10-Write the words of Imam Ali (AS) about paying attention to God in all things.

طُوبَى لِمَنْ أَخْلَصَ لِلَّهِ عَمَلَهُ وَعِلْمَهُ وَحُبَّهُ وَبُغْضَهُ وَأَخَذَهُ وَتَرَكَهُ وَكَلَامَهُ وَصَمْتَهُ وَفِعْلَهُ وَقَوْلَهُ

Blessed is he who is sincere to God in his deeds, his knowledge

Lesson 2

1.What is the ethic?

According to the Islamic scholars, ethics includes all human traits which are brought about either by heredity or environment and which make up his personality influencing his deeds, conducts and speech.

2-What is the difference between character(kholqh) and creation(khalqh)? (mention at least three).

Kholq refers to the soul, whereas khalq refers to the body

-Predetermined creation” Khalq” ; Being tall or handsome, being a man or a woman. It is not voluntary. That is, we did not create them ourselves

But “Khulq” is voluntary. One can create them oneself; For example, we can be selfish or humble, brave or cowardly.

- “Khalq” is physical and obvious , superficial, worldly , material – and it can be seen. But temperament “Khulq” is part of the inner, spiritual personality. No one can see it.

- The evolution of the body and its attributes is limited, but the evolution of spiritual attributes is unlimited.

It can be said that there are two distinct aspects to human beings: one is our creation, which is the same in all human beings, and the second is our personality, which is made up of good or bad traits that we acquire over time.

3-According to (Ibn Maskawayh), what does morality mean?

According to (Ibne Muskawiyyah), “kholq” is one of the traits of human self which entices man to carry out his daily affairs without thinking. It is of two types:

Some part of it is natural and rests on the human nature. An example is when a man becomes furious over minor things or fears insignificant events or becomes happy or depressed.

The other part of it relies on our customs and practices. Tis part at first infiltrated, no doubt, on thought but later, due to practice and repetition takes on a habitual status; then it works without

Thought

4-What does God say about the creation of man? (translation of two verses is necessary).

God uses various terms in the Qur’an to refer to the act of creation. God says in the Qur’an: We have certainly created man in the best of ways.

لَقَدْ خَلَقْنَا الْإِنْسَانَ فَاحْسَنْتَقْوِيم

God created man in the most appropriate forms.

So (khalq) creation is the same body that is common to all human beings. We can observe the characteristics of human creation that are related to their appearance, such as being beautiful or ugly, being handsome, being a woman or a man.

يا ايهاالناس انا خلقناكم من ذكروانتى(الحجرات)

O mankind, we have created you male and female

5-What is a person's responsibility towards his body and morals?

Khalq is the physical aspect of human being which is not the consequence their own efforts. We are given these characteristics simply due the state of being human. Thus, we are not responsible for them, of course, we are responsible for maintaining our health since both our health and our body are, in themselves, given to us as blessings; we are not responsible for

Simply having them rather about for we use them.

On the Day of Judgment we will not be asked why we are male or female, tall or short – as in this world

6-Explain the meaning of moral knowledge.

Knowledge of ethics means identifying good and bad behaviors and then learning ways to achieve good habits and treat or avoid bad habits. In the science of ethics, we study the temperaments and characteristics of human beings. Temperament is our spiritual or moral aspect. This refers to properties that are not physical. We also study good and bad actions. Therefore: Knowledge of ethics is a science that deals with human characteristics and traits (vices and virtues) of human beings as well as related actions

7-What is descriptive ethics and for whom is it more suitable?

Descriptive ethics: In this type of ethical research, we describe the ethics of diverse individuals, peoples, groups, and communities. Ex : Imam Ali was a just man.

☞ Its method is historical and narrative.

Suitable for children up to seven years old.

8-What is the ethics of command and prohibition and for whom is it more suitable?

Ethics of commanding and forbidding: The goal in such discussions is to oblige people to moral matters in a logical way.

The method in such discussions is logical coercion.

Suitable for adolescents up to fifteen years of age.

Ex: do not steal, respect the elders.

9-What is meta-ethics and for whom is it more suitable.

This type of ethics research examines and studies ethical concepts and expressions

Suitable for young people and the elderly.

10-What does Muhammad, peace be upon him, say about the first seven years, the second seven years, and the third seven years of the child?

The child is king or queen in the first seven years, he is servant in the second seven years and he is minister in the third seven of his ages.

11-What is the meaning of applied ethics?

Applied ethics means applying moral principles, values and ideals in moral behaviors, both in individual behaviors and in social behaviors. In fact, applied ethics is the application of ethical theory in a specific field. Topics such as; family ethics, political ethics, sexual ethics, learning ethics, medical ethics, and professional ethics. The main purpose of applied ethics is to solve ethical problems by considering the specific conditions that have arisen from them,

12-Why do we need ethics in life.?

In order for man to enjoy all his instincts and wishes to a logical degree, to live at peace with others and to attain prosperity both here and in the hereafter he has to observe ethical standards.

13-What does Alexis Carles, a famous French researcher, say about the lack of morals in societies?

Alexis Carls, the renowned French scholar, writes in this regard, "We have list all of our religious commands. The present generations are ignorant of commands, such as, living in moderate, honesty, responsibility, cleanliness, self control, love towards others, and courage. Such things

Are doomed as senseless are made fun of by younger generations.

The modern man recognizes no lie principle except enjoying worldly pleasures. Everybody slave to his pride and as a crab is ready to annihilate his fellow human beings. The very first social conducts have changed; chose is the rule of the day; marriages are no longer considered as bonds between husbands and wives. "At the same time, the material and mental conditions have produce such environments in in which children are considered just as nuisances.

"Thus, all those principles on which our grand fathers laid their ways of personal and social lives, are no just gone.

Lesson 3

1-According to the importance of science from the point of view of Islam, write a translation of two verses and a narration.

The first verses revealed to the Prophet are the best proof of the special place of teaching and learning in Islam:

أَقْرَأْ بِاسْمِ رَبِّكَ الَّذِي خَلَقَ الْإِنْسَانَ مِنْ عَلَقٍ اقْرَأْ وَرَبُّكَ الْأَكْرَمُ الَّذِي عَلَّمَ بِالْقَلَمِ عَلَّمَ الْإِنْسَانَ مَا لَمْ يَعْلَمْ

Recite in the name of your Lord who created, Created man from a clinging substance, Recite, and your Lord is the most Generous, Who taught by the pen, Taught man that which he knew not. (Al-'Alaq 1-5)

Because of the importance of science, when the Prophet of Islam observed two groups in the mosque, one of which was engaged in worship and the other group was engaged in scientific discussions, the Prophet went and sat next to the scientific negotiation group and said, "I have been sent for teaching.) (Behaar al-anwar 1 p206) بالتعليم ارسلت"

The Qur'an considers education to be one of the main purposes of motivating the Prophet:

هُوَ الَّذِي بَعَثَ فِي الْأُمِّيِّينَ رَسُولًا مِنْهُمْ يَتْلُو عَلَيْهِمْ آيَاتِهِ وَيُزَكِّيهِمْ وَيُعَلِّمُهُمُ الْكِتَابَ وَالْحِكْمَةَ وَإِنْ كَانُوا مِنْ قَبْلُ لَفِي ضَلَالٍ مُبِينٍ

- It is He who has sent among the unlettered [Arabs] a Messenger from themselves reciting to them His verses and purifying them and teaching them the Book [i.e., the Qur'ān] and wisdom – although they were before in clear error

2-What does cultivation mean and how does it affect our lives?

Cultivation means restoring the human soul and nature to its original and natural purity and honesty.

The fact that we see that Islamic texts, in addition to inviting students to study, also emphasize the cultivation and removal of the stain of sin and the temptation of Satan from the heart, is due to the fact that piety frees a person from the bondage of inner and outer demons. Piety causes human nature to return to its original purity and clarity, so that in addition to benefiting more from insight and insight, it can easily accept truths without the intervention of carnal airs, and attain useful knowledge and correct thoughts. If the intellect wants to have a correct understanding and cognition, the wise must practice moral virtues and divine piety and be freed from the bondage of carnal desires.

3-When is the understanding and knowledge of reason correct?

There is no limit to learning knowledge, Learning science is not specific to a particular class or group or gender:

طَلَبُ الْعِلْمِ فَرِيضَةٌ عَلَى كُلِّ مُسْلِمٍ وَ مُسْلِمَةٍ

The Prophet says” that learning science is obligatory on every Muslim”(Osoole kafi vol 1 ketab fazlol elm Babe 1 hadis 1).

أَطْلُبُوا الْعِلْمَ مِنَ الْمَهْدِ إِلَى اللَّحْدِ

He also says” to seek knowledge from the cradle to the tomb”

Learning knowledge is not specific to a particular place that the Prophet says ”seek knowledge even if it is in China”(Behaar al-anwar vol 1 p180).

4-Does piety have an effect on the acquisition of knowledge? How?

The answer is that putting piety next to knowledge does not mean that ungodly people cannot learn knowledge, but it means that by returning the human soul and nature to its original purity and nature and honesty, it becomes easier for him to learn and accept truths.

The relationship between piety and knowledge

The word piety means discipline, purification, refinement, improvement and so on.

Example: Consider a cup and milk. If we pour milk into a dirty cup, the milk also gets dirty. When we give science to a wrong person, he also loses knowledge and may even spend it in a bad way. Hence, the relationship between piety and education is clear.

5-State the steps to achieve true knowledge with piety. (four steps) Steps of achieving true knowledge by observing piety;

1. Man attains his original pure nature by observing piety and piety.
2. Who has reached his first pure nature has high and lofty desires.
3. A person whose desires are transcendent, to achieve those desires, does worthy and appropriate with those desires.
4. According to the divine tradition, whoever does a good deed, God will reward him because God says we do not waste the reward of the virtuous

Lesson4

1-What does moderation mean? (write at least the translation of two verses).

Moderation from the root of justice means our mediation between the two states of something in terms of quantity and quality and establishing a fit between the two, as spring and autumn days and nights that are the same size are called "spring and autumn moderation".(Aqrab almawared /2/p753)

We know that God has created this world in a very balanced manner. In the Qur'an there are verses which refer to creation being balanced and measured e.g.

انا كل شيئ خلقناه بقدر

Indeed we have created everything in a measure (54:49)

والسما رفعها و وضع الميزان الا تطغوا فى الميزان و اقيموا الوزن بالقسط ولا تخسروا الميزان

And the heaven He raised it up and placed the scales (7) Do not transgress in the scales (8) And establish weight in equity and proportions (9)

In Aristotle's approach to ethics, when are virtues and vices revealed?

In the Aristotelian approach to ethics, which is welcomed by many Muslim ethicists, it has been argued that balance the most important requirement for a virtue and that a virtue is a virtue only when it is the middle position between two extremes. The virtues are only to be found when we strike a balance and the vices are found when we miss the balance and go to extremes. Thus,

according to the Aristotelian approach to ethics, every faculty has its own middle position and balance, and when one strikes this balance, one has achieved corresponding virtue.

3-What is the result of maintaining balance in each of the faculties of reason, anger and lust?

If someone achieves balance with respect to their faculty of reasoning, faculty of anger, and faculty of appetite, then they have achieved wisdom, bravery, and modesty (affat).

4- What is the meaning of modesty? (Tell a hadith about it)

The meaning of Modesty is submission of libido against of intellect. In other words, the meaning of Modesty is moderation to usage of likings. And sexual modesty is controlling of libido in framework of reason and religion.

Imam al-Bagher says: there is no worship better than sexual modesty.

ما عبد الله بشيء أفضل من عفة بطن و....

5-State two hadiths about moderation in friendship?

Imam Ali says: friendship must not promote affliction.

Imam Sadegh says: Do not disclose all of your secrets in a friendship (avoid going to extremes) because one day your friendship may turn into hostility.

6-What does moderation in worship mean? (express with a verse).

Moderation in worship:

The stereotypical image of a pious man may falsely lead one to believe that the worship of god may keep one from their daily affairs which is not consistent with the principle of moderation. However, a believer can indeed remember God all the time and still manage their life in a proper way, just as God says in the Quran;

رجال لا تلهيهم تجارة ولا بيع عن ذكر الله

There are people for whom neither business nor merchandise makes them forget God.

-These were all examples to show that maintaining a balance is very important in every aspect of life. As individuals, and also as community of the faithful, we should always try to establish this value in our life.

7-What is the saying of Imam Reza (peace be upon him) in comparing the body to the earth?

Imam Reza (pbuh) says: Know that the human body is like a clean earth that must be rebuilt, if moderation is observed and enough water is given to it, not so much that the earth sinks under water and not less than stay thirsty. , Such land is developed and yields a lot. But if proper care is neglected, that land will rot and be destroyed. So is the human body. The body finds health and well-being through food and drink, and gains blessings and comfort.

8-What is the opinion of the divine word (Quran) about eating, drinking, walking , talking and almsgiving?

Eat and drink but do not be extravagant" (araaf/31) in which God commands Muslims in this verse: to use food and drink, but do not be extravagant in eating and drinking.

9-Briefly state the observance of moderation in performing all the divine duties of man?

Lesson 5

Q1. Explain the reason for trusting in God because of God's complete power with two verses.

ANS: 1. God has full power over His affairs: trustworthy, means to believe that someone is capable of carrying out whatever they want or whatever they say. God is the only one in the whole world who can do whatever He says that He is going to do it no matter what the circumstances are. God says:

ومن يتوكل على الله فهو حسبه ان الله بالغ امره

Whoever puts his trust in Allah, He will suffice him. Indeed Allah carries through His command.

2. God has knowledge, of everything: God is all-Knowing; he is aware of all of our needs and he also knows the best way for our needs to be met. He knows about all our friends, enemies, problems, and their solution.

وسع ربنا كل شيء علما على الله توكلنا

Our lord embraces all things in His knowledge. In Allah we have put our trust. (7:89)

Q2. Why do we say that God knows everything?

ANS: God has knowledge, of everything: God is all-Knowing; he is aware of all of our needs and he also knows the best way for our needs to be met. He knows about all our friends, enemies, problems, and their solution.

وسع ربنا كل شيء علما على الله توكلنا

Our lord embraces all things in His knowledge. In Allah we have put our trust. (7:89)

Q3. Write a verse about God's kindness and a word about God's help.

ANS: Another point about trust is its unseen and transcendental dimension, that is, God Almighty helps the trustworthy person with unseen help, "مِنْ حَيْثُ لَا يَحْتَسِبُ" (since he does not think so). The patience of ordinary and natural causes is beyond and in our ranks is above material causes, and the appearance of the noble verse "وَمَنْ يَتَوَكَّلْ عَلَى اللَّهِ فَهُوَ حَصْبُهُ" Whoever relies on God, God will suffice him "(Surah Talaq 65, verse 3), promises such help. The works mentioned in the hadiths of the Infallibles (peace be upon them) about trust also confirm the words of the master.

Q4. How has trust in God been in the lives of divine prophets and all divine leaders?

ANS:

Unfortunately, there is sometimes a misunderstanding about the concept of trusting God. Some people want to shift all responsibility to God. They want to be lazy, do nothing, and avoid taking any responsibility. They only say that they are doing <Tawakkul, trusting God>. They claim that they have entrusted and submitted all of their affairs to God, then they do not do anything themselves.

This is not the true meaning of Tawakkul. When we look at prophet Muhammad, the great companions of the prophet, the household of the prophet, Abraham, Moses(a), Jesus (a), Noah(a) ... and all of the great leaders of humanity we see that they were hard-working, dedicated people. They thought, planned, and used all available techniques and legitimate means to fulfill their goals, but at the same time, they knew that any success or progress came from God. This is not the way in which the prophet trusted in God. He did not sit around doing nothing apart from praying, and then claim that he was trusting God. On the contrary, he was a very hard-working person who planned and did his best to implement his plans whilst at the same time trusting God.

Q5. There are three degrees of trust in God. Briefly explain each one.

ANS:

Degrees of trust in God

Some ethicists have attributed three degrees to trust in God, the brief report of which is as follows:

1 - First degree

The first degree of trust in God is that man's trust and confidence in him is like his trust in a lawyer he chooses to do his work. In fact, this is the lowest degree of trust and is easily achieved, and it lasts for a long time and does not conflict with human free will.

2 - Second degree

In the second degree of trust, man is unaware of the principle of trust and is mortal in his lawyer, God; Unlike the first type, where the person pays more attention to the contractual relationship of the attorney. This degree of trust is less realized and disappears sooner and does not last more than one or two days, and is achieved only for certain people.

In this state, the person spends most of his effort crying, asking and praying to God.

3 - High degree

The highest degree of trust is that man sees all his movements and residences in the hands of God. The difference between this type of trust and the second type is that here one even abandons begging, supplication, supplication and prayer, and believes that God manages things according to his wisdom, even though he does not beg and beg. The real example of this type of trust is the trust of Prophet Ibrahim (peace be upon him); For when the Nimrodians put him in the abyss to throw him into the fire, the divine angel reminds him to ask God for help and salvation, but he replies: "He does." [Ali abn abrahim qhomi –tafsire qhomi /2/p73]

Of course, this type is very rare and can not be achieved except for the faithful, and if it occurs, it will disappear soon and will not last a few more moments.

Q6 .state Allameh Tabataba'i's opinion about trusting in God completely.

ANS: The role and place of trust in human life

The late Professor Allameh Tabatabai says: "The truth of the matter is that the influence of the will and reaching the goal in the material world requires a series of natural causes and factors and a series of spiritual and spiritual factors. When man enters the field of action and prepares all the necessary natural factors, the only thing that separates him from his goal is a number of spiritual factors (such as weakness of will and determination, fear, sorrow, haste, and Imbalance, stupidity, inexperience and suspicion about the effect of causes and the like).

In such a situation, if a person trusts in God Almighty, his will and determination will be strengthened and the obstacles and spiritual disturbances against it will be neutralized, because in the position of trust, man will be associated with the cause (which is the cause of all causes). With such a connection, there is no room for worry and anxiety, and he resolutely struggles with obstacles to reach his goal.

Q7. Say the words of the Prophet of Islam (peace be upon him) and Imam Ali (peace be upon him) about trusting in God.

ANS:

Lesson6

1. What does it mean to be humble?

To be humble means to understand our limitations and to strengthen our understanding of our profound need for God – to achieve a sense of complete reliance on him. In other words, to understand what our attitude should be with regard to this trait, we should become aware of our position in this world. We are absolutely depended on God.

2. Explain our absolute dependence on God with a verse from the Quran.

In the Quran, God says:

يا ايها الناس انتم الفقراء الى الله والله هو الغنى الحميد

O mankind! You are the ones who stand in need of God, and God, He is the All-wealthy, All-Laudable.
(35:15)

We are all creatures of God and all the things we appear to possess are in reality God's possessions; he has given them to us out of His mercy. We are in fact, continuously in need of God to give us energy, life and indeed anything and everything else which we will strive to maintain our lives.

If whatever we have is a sign of our need, a sign of our dependence, what we do not have is certainly so.

3. How does a person who has the characteristic of arrogance feel?

A person who possesses this trait believes themselves to be in an elevated position when in reality they are not. Arrogance is one of the most vicious traits that a person can possess.

Humility occupies such an important role in a person's success that a lack of it is said to be the reason for one of the greatest failures in history.

4. what was the reason for Satan's refusal to prostrate before Adam (pbuh) when God asked him to do so?

When God talks about the story of creation and the way in which Satan failed to pass his test, God says:

ابى و استكبر و كان من الكافرين

He refused and acted arrogantly and he was one of the faithless (2:34)

The reason Satan refused to prostrate in front of Adam (a) when God asked him to do so was that he was arrogant.

5. Why do God's good servants behave lovingly against the bad behavior of others? (give two reasons)

Firstly, they do this because it is good for them and it is what their sense of honor requires. A person who has honor, dignity and nobility never uses indecent and bad words or expressions.

Secondly, it is also better with respect to the other person. If someone thinks that they are right and that the other person has made a mistake, they should speak politely with them because then there is a chance that the other person may really that they made a mistake. They may reflect on what has happened and sooner or later come and ask to be forgiven.

6. How can a person be promoted to the highest level of perfection and closeness to God?

فان من تواضع لله رفعه الله

Indeed, the one who tries to be humble for the sake of God, God will elevate him.

This hadith teaches us that in order to be elevated by God, we have to be humble. Therefore, a person who has been elevated must have been humble, otherwise they would not have been raised up by God.

Of course, people may also elevate us by giving us power or money or by making us a president or a minister but this does not mean that we have been raised up by God. Without humility it is impossible to be elevated by God to the higher levels of perfection and closeness to him.

7. One of the most important qualities of Hazrat Muhammad was his humility. (explain) .

The Prophet (s) was the most humble person and this led him to be chosen by God as his prophet. However he never claimed any form of superiority for himself. He was even very careful not to appear different from other people and he did not have any special kind of arrangements for his daily living.

Many people in Medina lived in a better situation materially than did the Prophet. He did not have a palace nor an expensive office, he would either meet people in his house or in the masjid. He used to sit as part of a circle of people in a gathering and on many occasions those who had come from other cities to meet him for the first time were not able to identify him in the masjid without asking other people.

8. In what cases is arrogance not a moral vice? (Mention the Hadith).

Arrogance is condemned in all cases and is considered a moral vice and only in one place it is a pleasure and a cure for arrogance, and it is in a place where it is against arrogant and arrogant human beings

We are placed. For example, in the face of arrogant kings, one should not be humble, but should be arrogant.

He struck so that he would not think that only he was high, hence the Commander of the Faithful (pbuh)

A beautiful hadith has been said:

التكبر على المتكبرين هو التواضع بعينه "

"Arrogance against an arrogant person is, in itself, humility."

9. Why is humility against the arrogant forbidden?

In religious sources, humility towards a person who considers himself great and looks down on others is forbidden, because such humility causes humiliation and humiliation of Muslims, in addition to humility towards selfish and arrogant people may increase arrogance. He thinks that he is really great and superior and deserves the respect and esteem of others.

When refraining from humility towards the arrogant causes him to come to his senses and wake up and give up his disgusting deeds and get rid of the bondage of the soul, therefore not only should not be humble towards such a person but also one of the cases where arrogance is permissible for believers. And arrogance is considered valid against the arrogant.

10. When is humility before unbelievers appropriate?

One of the main duties of the true believers is to be kind to the friends of God and to express hatred and disgust with the disbelievers.

Of course, it is very clear that humility and modesty towards the infidels, if it is only from the point of view of humanity in order to attract, guide and compose their hearts, is a worthy deed and may lead them and calm their hearts towards the believers.

11. Why is humility not good with evildoers and oppressors?

One of the cases in which humility is forbidden is humility towards the sinner and the oppressor. Expressing love, respect and peaceful and humble treatment of such human beings causes them to have more courage and boldness in their sin and corruption.

They take such human attitudes as a seal of approval for their indecent and improper actions. Therefore, Islam has warned its followers against humility in the face of the wicked and oppressors: He says: The Prophet (PBUH) ordered us to deal with sinners with their faces covered and confused (وسائل الشيعة ج 11.413). Thus, we find that any openness and behavior that gives rise to sinners and transgressors and affirms or encourages them in their sin and immorality has been condemned and rejected by Islam.

12. What does the hadith say about being humble with the rich and powerful?

In Islamic traditions, humility based on the criteria and material values of individuals is condemned. Ali (AS) says:

من اتى غنيا فتواضع له لغناه ذهب ثلثا دينه.

Whoever enters into wealth and humbles himself for his wealth, God will take away two-thirds of his religion.

Unscrupulous believers never covet the owners of wealth and the weak and the weak, and for the sake of attaining wealth and position: And Tani do not speak. And on the Day of Resurrection, they will be gathered with Qarun Zaranduz and thrown into the fire] (الحياه ج 3.347).

Lesson 7

1- When is anger necessary?

. Sometimes we need to get angry in order to protect ourselves from threats.

. For example, if a person is trying to kill us or to kill an innocent person in front of us, then we need to have a certain level of anger to be able to defend ourselves or the other person. If we are indifferent, we will not be able to act. In such circumstances we should indeed exercise our faculty of anger; however, this must be guided and regulated by our faculty of rationality.

2- When is anger harmful?

It is a problem if a person becomes angry and loses control over their words and actions

3- What is anger? When is it good and when is it bad?

-is an indicator for internal desires

-Anger is an unwanted emotional response to a real or imagined threat and the greater the threat, the greater the arousal and consequently the greater the motivation to eliminate it.

-it is problematic if one never gets angry just as it is problematic if one is easily angered.

-It is a problem if a person becomes angry and loses control over their words and actions, whereas it is a good thing and indeed sometimes necessary for a person to become angry at appropriate time whilst maintaining control over their words and actions.

we might see our child, spouse, sibling, or even a stranger doing something wrong and attempting to harm us, and we may become excessively angry and overreact.

If we do something that harms them, it is we who have now done something wrong.

4- Write the ways to calm anger by mentioning God (three ways).

Remembering the greatness of divine punishment, the extension of His power and sovereignty, and man's inability to face the eternal power of God and man's need for God's forgiveness. In this regard, Imam Sadegh (as) said:

(... إِنَّ فِي التَّوْرَةِ مَكْتُوباً يَا ابْنَ آدَمَ، اذْكُرْنِي حِينَ تَغْضَبُ، اذْكُرْكَ عِنْدَ غَضَبِي).

it is written in the Torah: O son of man, remind me when you are angry, that I may remember you when I am angry.

Sheltering to God from the evil of Satan and his temptations, to say; (أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ) And this is the commandment that the Messenger of God, may God bless him and grant him peace, sometimes said to angry people. (Mohaja al-Bayda, vol. 5, p. 304)

Ablution or ghusl with cold water is also effective in extinguishing the fire of anger. The Holy Prophet (PBUH) said: إِذَا غَضِبَ أَحَدُكُمْ فَلْيَتَوَضَّأْ بِأَمَاءِ الْبَارِدِ، فَإِنَّ الْغَضَبَ مِنَ النَّارِ (Ibid., P. 307) Whenever one of you is angry, perform ablution with cold water, because anger is from fire, and fire is extinguished with water.

5- Write three types of anger management behaviors.

Changing the position from standing to sitting or vice versa is also recommended in some narrations.

Imam Baqir (as) said: أَيُّمَا رَجُلٍ غَضِبَ وَهُوَ قَائِمٌ فَلْيَجْلِسْ، فَإِنَّهُ سَيَذْهَبُ عَنْهُ رَجُزُ الشَّيْطَانِ وَ إِنْ كَانَ جَالِسًا (Baharalanvar, vol. 73, p. 264.). Whoever gets angry while standing, sit down quickly, this will eliminate the temptation of the devil and if he is sitting, get up quickly.

Investigate the causes and factors of your anger;

Every day, record the things you get angry about, and then spend ten to fifteen minutes of your daily time examining the causes and factors of your anger.

Leave the scene;

For people with an explosive mood, the first step in controlling this mood is to get off the stage when you are angry.

6- How to control anger through ablution, prayer and remembering the Day of Judgment?

Ablution or ghusl with cold water is also effective in extinguishing the fire of anger. The Holy Prophet (PBUH) said: إِذَا غَضِبَ أَحَدُكُمْ فَلْيَتَوَضَّأْ بِالْمَاءِ الْبَارِدِ، فَإِنَّ الْغَضَبَ مِنَ النَّارِ. (Ibid., P. 307) Whenever one of you is angry, perform ablution with cold water, because anger is from fire, and fire is extinguished with water.

Mentioning God and praying and using prayer and fasting:

Prayer and communication with God cause the chest to expand, and human beings who are related to God always have a special dignity and are not easily provoked; As stated in the Holy Quran;

Indeed, the remembrance of God calms the hearts.

"[Surah Ra'd, verse 28.]: لَا يَذْكُرُ اللَّهُ تَطْمِئِنُّ الْقُلُوبُ؛

Thinking of the Hereafter and Paying Attention to Death:

Belief in the annihilation of the world and the embodiment of death can have a significant effect on self-control and anger control and bring a special peace to human beings.

7- How to control anger through decision , meditation and calculation?

Practice, meditate, calculate, meditate:

At the beginning of the day and before entering the daily activities, try to bet with yourself that you will not get angry and during the day, be careful not to get angry and if something happens that you will get angry; Be sure to write it down and end up blaming and reprimanding yourself for unnecessary anger.

Lesson 8

1- What does honesty include and what does it not include?

Honesty is a facet of moral character that connotes positive and virtuous attributes such as integrity, truthfulness, straightforwardness, including straightforwardness of conduct, along with the absence of lying, cheating, theft, etc. Honesty also involves being trustworthy, loyal, fair, and sincere.

Honesty means never faking reality in order to gain a value. As such, it requires recognition of all the relevant facts of a given situation – and only the facts.

2- What do the Quran and Imam Baqir (peace be upon him) say about honesty?

Imam al-Bagher advises:

تعلموا الصدق قبل الحديث

Learn truthfulness before speaking.

The Quran says:

يا أيها الَّذِينَ آمَنُوا لِمَ تَقُولُونَ مَا لَا تَفْعَلُونَ كَبُرَ مَقْتًا عِنْدَ اللَّهِ أَنْ تَقُولُوا مَا لَا تَفْعَلُونَ

O you who have believed, why do you say what you do not do? Saying what you do not practice is odious to God

Beyond that which is directly observed many fall to the temptation of lies because of the buffer it provides them from responsibilities. Such a behavior may easily develop into a habit nay a social norm and corrupt the fabrics of a society based upon trust. This is why Imam al-Sajjad says:

خير مفاتيح الأمور الصدق وخير خواتيمها الوفاء

It is best to start everything with trustfulness and end it with faithfulness.

3- How is the relationship between telling the truth and believing it and acting on it about honesty?

it is important to note that one tells the truth but does not believe in it, one is not truthful. Furthermore, if one believes in the truth but still does not put it into practice, one is not truthful. The person who is considered to be Siddiq is the one who is completely in compliance with the truth in every way.

4- What is the reward of honesty?

والذي جاء بالصدق وصدق به أولئك هم المتقون. لهم ما يشاءون عند ربهم ذلك جزاء المحسنين. ليكفر الله عنهم أسوأ الذي عملوا ويجزيهم أجرهم بأحسن الذي كانوا يعملون

And he who brings the truth and he who confirms (and supports) it such are the men who do right .They shall have all that they wish for in the presence of their Lord, such is the reward of those who do good. So that Allah will turn off from them (even) the worst in their deeds and give them their reward according to the best of what they have done.

The prophet puts that in even more direct terms:

عليكم بالصدق فإنه باب من أبواب الجنة

Stand on you with honesty, because the door is from the doors of heaven.

In another Hadith it is noted that six things guarantee one's place in heaven, three of which pertain to honesty:

اكفلوا لي ستاً أكفل لكم بالجنة: إذا حدّث أحدكم فلا يكذب، وإذا اتّمتن فلا يخن، وإذا وعد فلا يخلف، غصّوا أبصاركم، وكفّوا أيديكم، واحفظوا فروجكم

Guarantee for me six things and I will guarantee paradise for you: tell the truth when you speak. Fulfill your promises. Be faithful when you are trusted. Lower your gaze. Withhold your hands (from harming others). And, safeguard your private parts.

It is paramount to highlight faithfulness as a natural result of honesty (as noted before). It is so that we may note honesty as one of the defining characteristics of a believer when the Prophet says: "the believer is the one the people trust with their wealth and life."

5- It is stated in the hadith that six things guarantee a person's place in heaven, three of which are related to honesty. What are those three things?

In another Hadith it is noted that six things guarantee one's place in heaven, three of which pertain to honesty:

اكفلوا لي ستاً أكفل لكم بالجنة: إذا حدّث أحدكم فلا يكذب، وإذا اتّمتن فلا يخن، وإذا وعد فلا يخلف، غصّوا أبصاركم، وكفّوا أيديكم، واحفظوا فروجكم

Guarantee for me six things and I will guarantee paradise for you: tell the truth when you speak. Fulfill your promises. Be faithful when you are trusted. Lower your gaze. Withhold your hands (from harming others). And, safeguard your private parts.

6- What are the ways of practicing honesty?

- Think before you speak.
- Say what you mean and mean what you say.
- Bend over backward to communicate in an open and honest fashion.
- Simplify your statements so that everyone clearly understands your message.
- Tell it like it is rather than sugarcoating it.
- Present both sides of each issue to engender objectivity.
- If you have a personal bias or a conflict of interest, make it known.

- Tell people the rationale behind your decisions so that your intent is understood.
- If something is misinterpreted, quickly correct the record.
- Don't shoot the messenger when someone tells you the truth. Thank them for their honesty and treat the information provided as a gift.
- Willingly accept responsibility by admitting a mistake or an error in judgment — in a timely fashion.
- Hold people accountable when their words do not match their actions.
- Never compromise your integrity and reputation by associating yourself with people whose standards of integrity you mistrust

7- What is the effect of lying in the opinion of the Prophet (peace be upon him)?

These may all seem very demanding but it will be less so once juxtaposed to the price of lying as stated by the Prophet: "Beware of telling lies for lying leads to wickedness and wickedness leads to fire." A slave of Allah continues to lie and tires hard to lie till he is recorded as a liar with Allah

Lesson 9

1- What is patience in words and deeds?

ANS: *Sabr* or patience is taken literally to mean: to stop, or hold back. In action it is taken to mean stopping yourself from negative reactions at things you dislike or conversely things you love but might come to harm if approached without preparation.

2- What is the principles and criteria of patience?

ANS: The guiding principle in patience is using logic instead of emotions to think through a situation.

Criteria:

- There should be no complaint on your tongue
- There should be no complaint against Allah in your heart
- Your *Amal* should not be affected
- Your dealings with people should not be affected

Your *Ibadah* should not be affected

3- If patience does not mean complete suppression of emotions, then what does patience means?

ANS: Patience is not the complete suppression of emotions and desires, it is rather their suspension – either by channeling or other means – so that one may be able to take the steps necessary to reach the desired results. It is permitted to feel – to be sad or cry but what is imperative is to control one's tongue and actions from sayings and deeds that may cause irreversible damage.

Q4. Patience is similar to which moral concept? Why?

ANS:

5-What does God say about patience and patient people?

ANS:

إِنَّمَا يُوفَّى الصَّابِرُونَ أَجْرَهُمْ بِغَيْرِ حِسَابٍ

Indeed, the patient will be given their reward without account." (39:10)

Not only does god assure us by confirming the desirability of the natural outcome of patience, but he also tells us that patience itself will be rewarded.

Lesson 10

1. what is does forgiveness mean?

1. Forgiveness is the intentional and voluntary process by which a victim undergoes a change in feelings and attitude regarding an offense, lets go of negative emotions such as vengefulness, forswears recompense from or punishment of the offender, however legally or morally justified it might be, and with an increased ability to wish the offender well.

2. Forgiveness is different from condoning, excusing, forgetting, pardoning, and reconciliation, That is contrasted with legal terms wherein, forgiveness is a term for absolving or giving up all claims on account of debt, obligation, or other claims.

3. To forgive means to be merciful, to pardon an offense or an offender, to give up a claim against another individual, to set aside a debt, to relinquish anger or resentment, however justifiable those feelings may be, to free a person from the burden of guilt.

2- What are the effects of the act of forgiveness?

To forgive is an act that can have varied but related meanings. To forgive means to be merciful, to pardon an offense or an offender, to give up a claim against another individual, to set aside a debt, to relinquish anger or resentment, however justifiable those feelings may be, to free a

person from the burden of guilt. This goal may be achieved through various means according to the traditions and the type of relationship between the offender and the offended. What matters above all, though, is to attain the status of peace following forgiveness and to allow the emotions associated with the action subside and the occurrence itself to become only a matter of history

3-There are 2 types of forgiveness in Quran. Explain.

forgiveness can be broken into two categories.

- 1.The first includes references to the character of Allah as forgiving.
2. The second broad category includes exhortations for human beings to forgive, whether for the sake of righteousness or for the sake of reward.

4- According to the verses of the Quran, who rewards the giver?

وَالَّذِينَ يَجْتَنِبُونَ كَبَائِرَ الْإِثْمِ وَالْفَوَاحِشَ وَإِذَا مَا غَضِبُوا هُمْ يَغْفِرُونَ

“The reward of the evil is the evil thereof, but whosoever forgives and makes amends, his reward is upon Allah.”

5- What does the Quran say about punishing someone who has harmed Us?

وَجَزَاءُ سَيِّئَةٍ سَيِّئَةٌ مِّثْلُهَا فَمَنْ عَفَا وَأَصْلَحَ فَأَجْرُهُ عَلَى اللَّهِ إِنَّهُ لَا يُحِبُّ الظَّالِمِينَ

The reward of the evil is the evil thereof, but whosoever forgives and makes amends, his reward is upon Allah.”

وَإِنْ عَاقَبْتُمْ فَعَاقِبُوا بِمِثْلِ مَا عَاقَبْتُمْ بِهِ وَلَئِنْ صَبَرْتُمْ لَهُوَ خَيْرٌ لِّلصَّابِرِينَ

“If you punish, then punish with the like of that wherewith you were afflicted. But if you endure patiently, indeed it is better for the patient. Endure you patiently. Your patience is not except through the help of Allah
