 - Increasing the inflammation/Decreasing the inflammation
 - Increasing the clotting/Increasing the chemotaxy of neutrophils
 - Increasing the chemotaxy of neutrophils/ Increasing the clotting
 - Increasing the angiogenesis/ Increasing the clotting

5. **The percentage of calcium absorption is.....**
 - 10
 - 80
 - 25
 - 1-2

6. **What is the ultimate function of PTH?**
 - Increasing the blood calcium
 - Decreasing the blood calcium
 - Increasing the calcium in bones
 - Increasing the calcium in urine

7. **Keshan disease is a situation of**
 - Chromium deficiency
 - Selenium deficiency
 - Iodine toxicity

- Selenium toxicity
8. **What is the main function of vitamin B6?**
 - Transamination
 - Deamination
 - Amination
 - None of above mentioned
 9. **What is the main cause of Beriberi disease?**
 - Deficiency of thiamine
 - Toxicity of thiamine
 - Deficiency of Riboflavin
 - Toxicity of Riboflavin
 10. **What is the main cause of Pellagra disease?**
 - Deficiency of Niacin
 - Toxicity of Niacin
 - Deficiency of pyridoxine
 - Toxicity of pyridoxine
 11. **What is the main cause of photophobia?**
 - Riboflavin toxicity
 - Niacin toxicity
 - Riboflavin deficiency
 - Niacin deficiency
 12. **Which one is the site of vitamin B12 absorption?**
 - Stomach
 - Duodenum
 - Jejunum
 - Ileum
 13. **Deficiency of folic acid or vitamin B12 causes?**
 - Microcytic Anemia
 - Hypochromic Anemia
 - Normocytic Anemia
 - Megaloblastic Anemia
 14. **Which vitamins are hormone-like compounds?**
 - Vitamin D / Vitamin C
 - Vitamin A / Vitamin C
 - Vitamin K / Vitamin D
 - Vitamin D / Vitamin A
 15. **Which amino acid improves the mood?**
 - Arginine
 - Tryptophan
 - Lysine
 - Glycine
 16. **Which type of vitamin A increases the cell proliferation more?**
 - Retinal

- Retinoic Acid
- Retinol
- Carotenoids

17. What is the most prevalent age for Rickets?

- Adults
- 6 month of age
- 1-2 year
- Aged over the 60 years
